Subject: Permit Status

Hi Brent,

Hope you had a nice holiday break and are getting settled back into the swing of things.

We were wondering if you had an update for us on the following:

- LANL IP and MS4 Designation – are you still planning to issue in February, and did we need to have a discussion on the IP?
- NM History Museum – we were wondering about a status update on this permit. We were contacted last week by a new consultant (hired by the Museum) who was needing more information about sampling.
- ABQ MS4 – monitoring plan needs discussion.
- sMS4 permit – comments from NM ISC – does this need any discussion before we submit our certification?

Thanks in advance for any info you can give us.
